WORK EXPERIENCE

Mr Apps Front-end Developer
Apr 2024 - Feb 2025

built proficient responsive web sites connected with backend using Axios , some of projects I have made :

Marasil :
Built a responsive web app using React and Axios for state management. Developed client and admin dashboards for managing and tracking shipments. The project targets Saudi e-commerce businesses and individuals.

Al Aseel Sweets :
Designed and developed a responsive website with a functional dashboard for managing products and orders. Integrated Supabase for authentication, storage, and database handling, enabling secure user login and efficient product management.

Devign Creatives :
Devign Creatives is a modern software company specializing in web and mobile app development, as well as digital marketing services. The website showcases the company's services through a sleek, responsive design built with React, emphasizing creativity, performance, and user experience. It serves as both a portfolio and a point of contact for potential clients, including startups, small businesses, and enterprises.

Mirruba Jewelry :
Developed a modern, responsive website using React, with a user-friendly interface and RESTful API integration for seamless product management. Built an admin dashboard to manage listings, track orders, and monitor sales performance.
